

# BRB-400

The BRB-400 is a self-propelled, walk behind floor scraper. The BRB-400 utilizes a 120 volt power source and is equipped with a DC drive motor with variable speed controls. This allows the operator to adjust the travel speed to get the optimal removal rate. The BRB-400 is capable of removing VCT, sheet vinyl, carpet, hardwood flooring, and light membrane. The BRB-400 also features an adjustable handle for removing floor coverings under racks and other obstructions.

*Production Capacity:	Variable up to 480 ft <sup>2</sup> /hr
Blade Width:	6", 8", 10" and 12"
Travel Speed:	Variable up to 80 ft/min
Voltage:	120 volts
Amperage:	9 amps
Dimensions (L x W x H):	36" x 16" x 38"
Weight:	400 lbs. with weights 340 lbs. without weights
Power Cord Length:	25 ft.

#### Advantages over competitors:

- The equipment, as well as all wear parts, are made in the U.S.A. and there is typically no lead time when ordering parts.
- The electrical box and electrical components are engineered and constructed by a UL508A control panel group.
- The type w 10/3 electrical cord is the toughest and most wear resistant cord available.
- 24 hour customer service.
