

5200-QL Panther® Cordless

Need to work 24/7? No problem with the 5200QL! • The quick release battery system allows the machine to operate continuously without ever having to stop • Utilizing the supplied two sets of interchangeable batteries, the 5200 QL never takes a break or goes home for the day, that is until you do!

Quick Load Panther®

Batteries easily slide in and out - no heavy lifting required!

This Cordless Ride On floor removal machine is the only replaceable battery machine on the market • When a battery runs down, it can be quickly replaced • The machine will keep running while a second battery pack is charging • A great deal of floor removal and surface preparation jobsites are located indoors or in areas with limited or restricted ventilation, our battery machines eliminate toxic and harmful fumes allowing these machines to be used on almost any job site • Power packs easily slide out the back of the machine onto a cart for easy and convenient battery changing and transportation - requires no heavy lifting • Extended run battery system allows longer run time and higher cycle life

Features:

- Easy to operate
- Zero turn radius
- Extremely low maintenance, no belts or gears
- Great for commercial surfaces removal & preparation, but compact enough to operate on residential jobs
- Non marking tires
- Easy to transport, load and unload
- Large machine performance built into a compact machine
