#550 Adjustable Handle Panther®

Features:

- New, unique wheel adjustment changes the blade angle to completely disengage the wheels from the floor or sets blade to a very steep angle
- Works on any type of subfloor
- Unique head angle will not gouge floors
- Direct drive system ensures maintenance free operation
- Random orbital action helps to eliminate operator fatigue
- Quick change cutting head securely holds the blade giving increased blade life and also allows operator to offset blade for access under toe space or at the wall
- 1 HP motor with extra heavy shaft allows this machine to remove hard to remove materials such as wood, ceramic and epoxy coatings with the patented angle shank attachment
- Uses conventional or self-scoring scraper blades or the optional angle shank with carbide tip for hard to remove goods
- Waterproof switch
- Runs extremely quiet
- Weight: 119 lbs. - can be shipped by UPS
- Made in the USA
- Patent No. 4,963,224 - Other patents pending
- One year warranty on parts and labor
